

# Indigenous Math K-12 Symposium

**Mathematical and Indigenous Futures: Generational Journeys**

May 12, 2020 | Sty-Wet-Tan First Nations Longhouse, UBC

*Silenced No More* | 2015

## **Looking to the Past to Innovate the Future**

**Nico Williams** | Geometric Glass Beading

Nico Williams, Ojibwe from Aamjiwnaang First Nation, works with Japanese glass beads and creates experimental forms using geometric beadwork. His work looks to the past to innovate the future using traditional beading to make political and social statements about issues Indigenous peoples have and are currently facing in Canada. [nicowilliams.com](http://nicowilliams.com)

With Nico we will celebrate our 10<sup>th</sup> Symposium travelling through mathematical and Indigenous futures.

► **Registration** | opens March 12, 2020
